WOUND CARE

Are you ready to help make chronic wounds a thing of the past?

When patients don't receive best practice treatment, it's normal for their wounds to often persist for months or years on end, requiring copious amounts of time, resources, and professional attention.

The effects of this can be critically devastating to the patient & extremely costly to system.

At Health Outcomes Worldwide, we believe these negative outcomes are completely avoidable.

When front line healthcare providers are alerted to patient-specific best practices in real time, wound complications can often be prevented from ever occurring in the first place, and if they do occur they can be *healed faster* by enabling best practice...

Empowered by our how2trak[®] Wound Care software, clinicians are making these sorts of positive outcomes the new normal in wound care!

CONTACT A HOW2TRAK WOUND CARE ADVISOR TODAY!

Learn more about how you & your team can start adopting wound care best practices right from the bedside, using how2trak[®] Wound Care!

ADMIN BENEFITS

- Tracks product efficacy in healing wounds
- Provides defensible documentation for each patient
- Saves time, money and material as a direct result of patients recovering faster

CLINICIANS BENEFITS

- Improves levels of confidence, wound care knowledge, and efficiency
- Increases capacity for specialists & managers
- Automated wound measurements
- Real-time tracking of wound progress to closure

PATIENT BENEFITS

- Improves patient healing time by up to 70%
- 42% reduction in overall wound prevalence
- Avoids unnecessary travel
- Decreases the chance of severe complications

Our **point-of-care software** helps nurses, clinicians, and administrators work towards reaching incredible outcomes by using best practices in real time - decreasing pain, saving money, and restoring lives!

THE PROBLEM

Best Practice Is Only Used 30% of the Time

Wrong Treatments Are Being Given

Poor Documentation

No Outcome Tracking

Too Few Wound Specialists

High Costs

Wounds Are Being Misdiagnosed

Astronomical Amount of Lawsuits are Being Filed

Limbs Are Amputated & Lives Are Lost

OUR SOLUTION

Real Time Clinical Decision Support

Best Practice Assessments

Secure Point-of-Care Photo Capabilities

Automated Wound Measurement Tool

Supply & HR Tracking

Enhanced Reporting Capabilities

Visual Recognition & Artificial Intelligence
